## **DETAILED ACTION**

### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with James E. Parsons (Reg. No. 34,691) on May 20, 2004.

The application has been amended as follows:

Claim 33, lines 19-20, change "through a said circuit pattern and a said via" to – through at least one said circuit patterns and at least one said vias" for proper antecedent basis.

### ***Allowable Subject Matter***

2. Claim 33 is (renumber claim is 1) allowed.

The following is an examiner's statement of reasons for allowance: the references cited disclose an integrated circuit (IC) package comprising: a molded plastic body, at least four plastic posts, a plurality of electrically separate metal terminals and conductive circuit patterns, an integrated circuit (IC), and some of claimed elements. However, they do not disclose or render obvious in combination of the IC package

having at least some of the terminals on each of the at least four posts being electrically connected to the IC through at least one of said circuit patterns and said vias.

Also, there is no suggestion to modify the references to include these limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Watari and Fasano et al. disclose related art.
